

OmniSense Web Monitoring Service Price Plans

Effective 9/1/2013

Four Service Options to Meet Your Monitoring Needs

- Option 1 - \$20 per month per active gateway and \$29.99 per month per cellular gateway charged to credit card. Best for disaster and flood recovery customers.
- Option 2 - \$20 per month per active site up to 100 sensors then \$0.20 per sensor per month if more than 100 sensors charged to credit card. \$29.99 per month per cellular gateway. Best for long term monitoring customers.
- Option 3 - same as 1 but invoiced by email monthly and NET 30 payment terms.
- Option 4 - same as 2 but invoiced by email monthly and NET 30 payment terms

OmniSense Web Monitoring Service Option 1/3 - \$20 per month per active gateway, \$29.99 per month per cellular gateway

Best suited for temporary short term installations

- Monthly monitoring fee based on number of active gateways per account, per month. An active gateway is any gateway that has sent at least one sensor reading to the server that month.
- Allows unlimited site set-up for each account
- maximum 100 sensors per site
- In a month with no activity there is a minimum account maintenance fee of \$10 to keep the account active.

OmniSense Web Monitoring Service Option 2/4 - \$20 per month per active site, \$29.99 per month per cellular gateway

Best suited for permanent long term installations

- Monthly monitoring fee based on number of active sites per month. An active site is any site that has at least one sensor reading that month
- No restriction on number of Gateways per site
- The site fee includes up to 100 sensors per site after which it becomes \$0.20 per sensor, per month
- In a month with no activity there is a minimum account maintenance fee of \$10 to keep the account active.
- If the site uses cellular gateways then the \$29.99 per cellular gateway fee will apply

Volume Discount Schedule	
Total Bill	% discount
>= \$100	5%
>= \$200	10%
>= \$300	15%
>= \$400	20%
>= \$500	25%

The Fine Print:

- *OmniSense Web Monitoring Service is subject to the terms of the OmniSense LLC Monitoring Service Agreement*
- *Customers using the invoice payment plan with NET 30 terms have 30 days from the date of invoice to pay their bill after which the account will be past due*
- *Credit Card customers whose cards are declined will receive a warning email sent to the billing email address notifying them of the declined charge.*
- *accounts more than 30 days past due will have login disabled, more than 60 days past dues will be subject to deletion.*
- *All accounts MUST have a valid billing email address on file*
- *Billing is based on monthly usage*
- *There is no pro-rating*
- *Monthly usage for the prior month will be calculated the 1st of the month and credit cards will be charged on the 2nd of the month. Customers choosing to be invoiced will receive an electronic invoice by email only (there is no paper invoice option) which is emailed to the billing email address on the 2nd day of the month. Credit card customers will receive an electronic receipt emailed to their billing email address on the 3rd day of the month.*
- *Cellular gateway fees apply only to gateways that come with data service and will not apply to units where the customer provides their own SIM card*
